Subject: Willowbrook through Nov 24, 2018
Attachments: willowbrook nov 24 eto.pdf; willowbrook nov 24 eto.xls; sample log R5.xlsx; sample receipt R5 log.xlsx; willowbrook sum nov_18.xlsx

I have attached the Excel and PDF reports for the samples collected through November 24, 2018.

I have included a third summary spreadsheet (sample receipt %5 log.xlsx) that has the vacuums measured in the field and the vacuums measured in the lab. Because of the inconsistencies with the gauges, we have an exemption in our QAPP to allow $\leq 3''$ Hg difference between the field and the laboratory.

Please let me know if you have any questions. Thank you! Julie
